

Dilini Gnanarathne Associate Software Engineer

✉ shashikaladilini11@gmail.com ☎ +94 774379113 📍 Colombo, Sri Lanka 🌐 Dilini Gnanarathne

🔗 Dilini-Shashikala-Gnanarathne 🔗 Personal Portfolio

PROFILE

Motivated Full-Stack Software Engineer with 1.5+ years of experience designing, developing, and maintaining enterprise ERP applications. Skilled in building scalable web applications using Angular, React, Java, Spring Boot, PostgreSQL, and REST/gRPC APIs. Strong collaborator with experience working in cross-functional teams to deliver reliable, high-quality software aligned with business objectives. Passionate about solving complex engineering challenges, continuously learning new technologies, and applying a research-driven approach to software development.

EDUCATION

BSc. (Hons) in Computing and Information Systems Sep 2021 – Apr 2026
Sabaragamuwa University of Sri Lanka
Second Class Upper Division

PROFESSIONAL EXPERIENCE

Associate Software Engineer (Contract) Jun 2025 – Present
Enxora Group 🔗

- Develop and maintain backend services for enterprise ERP applications using Java, Spring Boot, and PostgreSQL.
- Design scalable RESTful APIs and implement business logic for finance, payroll, and supplier management modules.
- Optimize database performance and implement secure gRPC-based microservice communication.
- Collaborate in Agile teams, contributing to code reviews, testing, and continuous improvements.

Associate Software Engineer Feb 2025 – May 2025
Rizer 🔗

- Developed backend microservices and RESTful APIs using Java and Spring Boot.
- Designed PostgreSQL database schemas and optimized SQL queries for performance.
- Implemented gRPC-based service communication and participated in Agile development activities.

Technologies: Angular, TypeScript, JavaScript, Spring Boot, REST APIs, Git

Software Engineer Intern Aug 2024 – Feb 2025
Rizer 🔗

- Developed responsive frontend modules using Angular and TypeScript for enterprise ERP applications.
- Built reusable UI components and integrated RESTful APIs.
- Collaborated with senior engineers to deliver scalable, maintainable software.

Technologies: Angular, TypeScript, JavaScript, Spring Boot, REST APIs, Git

PROJECTS

AAIB – Enterprise Resource Planning (ERP) System 🔗

- Developed and enhanced an enterprise ERP system for the Agricultural & Agrarian Insurance Board (AAIB).
- Implemented Inventory, Purchasing, Fixed Asset Management, and General Ledger modules.
- Developed scalable frontend features using Angular and backend services using Spring Boot and REST APIs.
- Optimized database operations using SQL stored procedures and integrated gRPC services for efficient communication.

Tech Stack: Angular, Java, Spring Boot, gRPC, PostgreSQL, Git
AI Tools: GitHub Copilot

Serendib Microinsurance System [↗](#)

- Developed and enhanced ERP modules, including security improvements Excess Collection Management and General Ledger (GL) posting functionality.
- Optimized database performance using SQL stored procedures and integrated gRPC services for microservice communication.
- Developed responsive frontend features using Angular and TypeScript with scalable backend services using Spring Boot and REST APIs.
- Collaborated on debugging, testing, code reviews, and production support using Git and AI-assisted development tools.

Tech Stack: Angular, Java, Spring Boot, gRPC, PostgreSQL, Git

AI Tools: GitHub, Claude

Stock Management System [↗](#)

- Built a full-stack inventory management system with JWT authentication, RESTful APIs, and a responsive React frontend on a MongoDB backend.

Tech Stack: MERN, JWT, GitHub, Figma, Azure.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, TypeScript, HTML5, CSS3

Frontend: Angular, React.js

Backend: Spring Boot, Spring MVC, Spring Data JPA, REST APIs, Microservices, gRPC, Express.js

Databases: PostgreSQL, MySQL, MongoDB, Oracle Database

Security: Spring Security, JWT Authentication

Dev Tools: Git, GitHub, Docker, Maven, Postman, Swagger/OpenAPI

Core Competencies: Backend Development, REST API Development, Object-Oriented Programming, Database Design, SQL Optimization, Distributed Systems, Software Architecture, Agile Development, Software Engineering Best Practices

CERTIFICATES

- | | | |
|--|--|--|
| • React Basics ↗ | • Working with Version Control ↗ | • Java (Basic) Certificate ↗ |
| • MongoDB Aggregation with Node.js ↗ | • Web Design for Beginners ↗ | • AI/ML Engineer - Stage 1 ↗ |

SOFT SKILLS

- | | | |
|---------------------|------------------|-----------------------|
| • Teamwork | • Communications | • Problem Solving |
| • Critical Thinking | • Leadership | • Continuous Learning |
